# SoundClip-2

Product Code: SC2

1 Button Inputs
Supporting up to two buttons, the SC2 is also compatible with other triggering devices.

2 GPIO Out
During playback, the GPIO is switched on.

3 Speaker Output
The onboard 2 x 3W RMS amplifier provides the unit with high quality stereo audio. The block terminal can be connected to various speakers.

4 Delay Time
Adjust this control to change the delay time between PIR's and messages played

5 Master Volume
The Master Volume control sets the maximum volume level of the player.

6 Micro SD Card
Content is stored on a Micro SD card, allowing a maximum capacity of 32GB supporting up to 99 files.

7 Power Input
Simply connect the supplied '12V DC in' to give power to the device.

8 Configuration Switches
Select the manner in which your content is triggered, including looping, button, PIR and so on.

9 Headphone Output
The device has 2 x high quality stereo 3.5mm jack outputs.

10 Status LED
The green LED indicates the various player states.

11 Button Volume Control
Powered by 2 buttons, you can give your visitors the ability to increase and decrease the volume.
